

Dear Registered Learner,

In light of the most recent COVID-19 restrictions that were announced, we wanted to provide you with confidence that we are keeping you safe. As of March 1, 2022 the mandatory Covid-19 restrictions have in majority been lifted. We understand that each of us will continue to manage our personal risk tolerance differently, and as such this is what you can expect in your next training session:

- Continued stringent high touch point, classroom and common area cleaning and sanitization (we always did this but the signage will be maintained)
- Masking is optional and we encourage you to wear one if you choose.
- Class sizes will return to capacity, with 2 metre spacing no longer enforced
- Hand Sanitizer is everywhere – please use it often! We will require hand sanitization between touch, and / or skill demonstrations. This is a great safety practice that will remain with Global.
- Common training aids will be touched by multiple students – we have missed doing our scenarios! Scenarios' can be expected during your training where you might be required to handle patients, touch common equipment, and working together within the 2metres. Our stringent sanitization process will continue.

We continue to ask that you stay home if you feel unwell or are experiencing any new symptoms. Our flexibility and rescheduling policy will remain, so please contact our office to make arrangements.

As a valued Global learner, your safety has always been, and will always be our sole mission.

Our job is to help you as our learners keep yourself, your co-workers, and your sites safe. We thank you for your continued loyalty throughout the pandemic and can't wait to show you how awesome we can be without restrictions!!

Take Care & Stay Safe,
Global Training Centre
