

Outline	Learning Objectives
<p>This two-day program covers the essential modules required for first aid certification, while providing a unique first aid training concept that utilizes less theory and workbooks, and more scenarios and practical applications. The practical modules are unique in that participants respond to several mock-ups using live 'casualties'. No other first aid course has been presented with such enthusiasm and motivation among participants!</p>	<ul style="list-style-type: none"> <li>• Recognition of life-threatening injuries</li> <li>• Learn to provide intervention until medical aid arrives</li> <li>• Demonstrate artificial respiration</li> <li>• Demonstrate how to help a choking victim</li> <li>• Deal with shock and unconsciousness</li> <li>• Deal with severe bleeding</li> <li>• First aid for head and spinal injuries</li> <li>• Deal with fractures of upper and lower limbs</li> <li>• CPR for an adult casualty</li> <li>• Demonstrate the use on an AED</li> </ul>
	<h3>Competencies</h3>
	<p>Participants are required to complete a written competency check to minimum 80% level in order to obtain a pass mark, and successfully demonstrate the province-specific practical skill(s) required for certification.</p>
