

EQUIPOTENTIAL BONDING TRAINING FOR HYDROVAC OPERATORS

Our Equipotential Bonding Program provides fundamental knowledge and application of the principles with a flexible, scalable, blended training solution that develops well-trained, competent workers who understand why equipotential works and how to apply it safely and efficiently.

Our Experience

Extensive equipotential bonding and grounding expertise in the electric utility industry.

Decades of safety and training program development and delivery, with a focus on making concepts simple, practical, and effective.

Training Options for your Organization

1 eLEARNING

\$149/person (volume discounts available)

DETAC Online Course – can be used as a

1. Stand alone Course or
